CARBONATE IN RIGID
POLY(VINYL CHLORIDE)
COMPOSITIONS

PRELIMINARY AMENDMENT

Mail Stop PCT, Attn: US DO/EO
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Introductory Comments

In response to the International Preliminary Examination Report mailed August 10, 2004, Applicants amend their claims to emphasize that their essentially pure chalk-like calcium carbonate serves as a scavenger for free hydrochloric acid generated in poly(vinyl chloride) upon exposure to visible and ultraviolet light. Applicants also remove multiple dependencies. Applicants request examination and a Notice of Allowance.
